Decking

Since 1977 we've built our Zandertight™ reputation on thousands of satisfied residential and commercial customers in southern Wisconsin, by delivering healthier home and work environments.

Vinyl sheet system:

A spacious deck can add outdoor living value to a home or commercial property in a hurry — especially if it's a maintenance free system from Zander Solutions. We only use quality products that offer property owners the best durability, design diversity, and aesthetics. Our products are better because they can be installed in most weather conditions, are completely waterproof, and can go over almost any surface.

Homeowners love the system because of the color selection, ease of cleaning, and the versatility of use around hot tubs and pools. Commercial property owners love the slip-resistant surface, the assortment of widths and textures, and the durability to hold up in ultraviolet conditions.

Railings:

Railings installed by Zander Solutions are engineered tough. Our aluminum rails will not peel, flake or blister with age. Numerous railing styles to select from offer choices that are sure to compliment your home or building and offer you the most functional and safe railing system on the market.

Ask about decking solutions to suit your needs, call today.

Zandertight™ means exceptional service and products, competitive pricing, and a 100% workmanship guarantee for waterproofing — not water management.
