## Waterproofing

Since 1977 we've built our Zandertight™ reputation on thousands of satisfied residential and commercial customers in southern Wisconsin, by delivering healthier home and work environments.

### Residential Waterproofing:

Our process starts by discussing your goals to ensure we meet your expectations. Then we engineer a system by starting on the outside where the water starts. Controlling water before it enters a structure takes a little more planning and bit more muscle, but our 100% workmanship guarantee demonstrates that this is the watertight approach to waterproofing and the best way to prevent unhealthy mold from developing.

No two structures are vulnerable to water in the same way so we design a customized solution for each situation. However, our use of state-of-the-art materials and techniques remains constant, like using our exclusive Tuff-N-Dri® basement waterproofing barrier. As America's #1 brand of waterproofing for new basements, Tuff-N-Dri systems help control basement moisture from foundation wall leaks, seepage and interior condensation. This two-part system

features such remarkable performance that Tuff-N-Dri offers a 30-year transferable performance warranty.

### Commercial Waterproofing:

Our engineering approach for commercial projects is the same as our approach to a contractor's home — control water on the outside.

Whether waterproofing for offices, apartments, condominiums, hospitals, parking garages, sidewalks, roof decks or balconies, we use only the highest quality materials available — brands like Grace, Carlisle, BASF, Tremco, and Thermal.

Our history of working with leading construction companies and building contractors such as JH Findorff & Son, Tri-North Builders, Krupp General Contractors, Stevens, J.P.Cullen, Miron, Kraemer Bros., Planning Design Build, McGann Construction, and many more are a testimony to our quality and service.

Learn more about our Zandertight™ waterproofing solutions, call (608) 833-6620 or logon to [www.zandersolutions.com](http://www.zandersolutions.com).

Zandertight™ means exceptional service and products, competitive pricing, and a 100% workmanship guarantee for waterproofing — not water management.
